

## History

Type: Ki.15-I

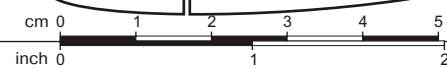

This was a light bomber, a monoplane with fixed landing gear, developed from pre-war long-distance and mailplanes. When it entered service in the war with China the speed of the Ki.15 was adequate protection, but this was no longer true in 1941. 439 were built.

## Performance

Function: bomber

Year:	1936
Crew:	2
Engines:	1 * 750hp Nakajima Ha-8
Wing Span:	12.00m
Length:	8.70m
Height:	3.35m
Wing Area:	20.36 m <sup>2</sup>
Empty Weight:	1 400 kg
Max.Weight:	2 300 kg
Speed:	480 km/h
Ceiling:	11400 m
Range:	2400 km
Armament:	1-2*mg 7.7 mm
	250 kg
