

Plastigage

This technical diagram illustrates a mechanical assembly, likely a bearing housing. A rectangular component, possibly a bearing or a housing cap, is shown with a central hole. A black and white striped Plastigage strip is inserted into this hole. The strip is labeled 'Plastigage' with an arrow pointing to it. The assembly is surrounded by various mechanical parts, including a gear with a striped pattern at the bottom right and a circular component with a wavy pattern at the top left. The entire diagram is rendered in black and white line art.
