

A technical line drawing of a vehicle's rear suspension system. The diagram shows a coil spring mounted on a frame, with a shock absorber and a control arm assembly. A bar is shown connecting the control arm to the frame. A coil spring is also shown. The text 'Bar' and 'Coil spring' are used as labels with leader lines pointing to the respective parts. The part number 'AC311660 AC' is located in the bottom right corner.
