<135>

A detailed line drawing of an engine compartment. An arrow points to the engine mount, which is a bracket-like component located on the left side of the engine block. The engine block is a large, rectangular component with various pipes and hoses attached to it. The engine mount is a small, L-shaped bracket that is bolted to the engine block and the chassis. The text "Engine mount" is written below the arrow, and the part number "AC804544AB" is written in the bottom right corner.
