## ENGINE OIL COOLER <4G63-Turbo, 4G69-M/T>

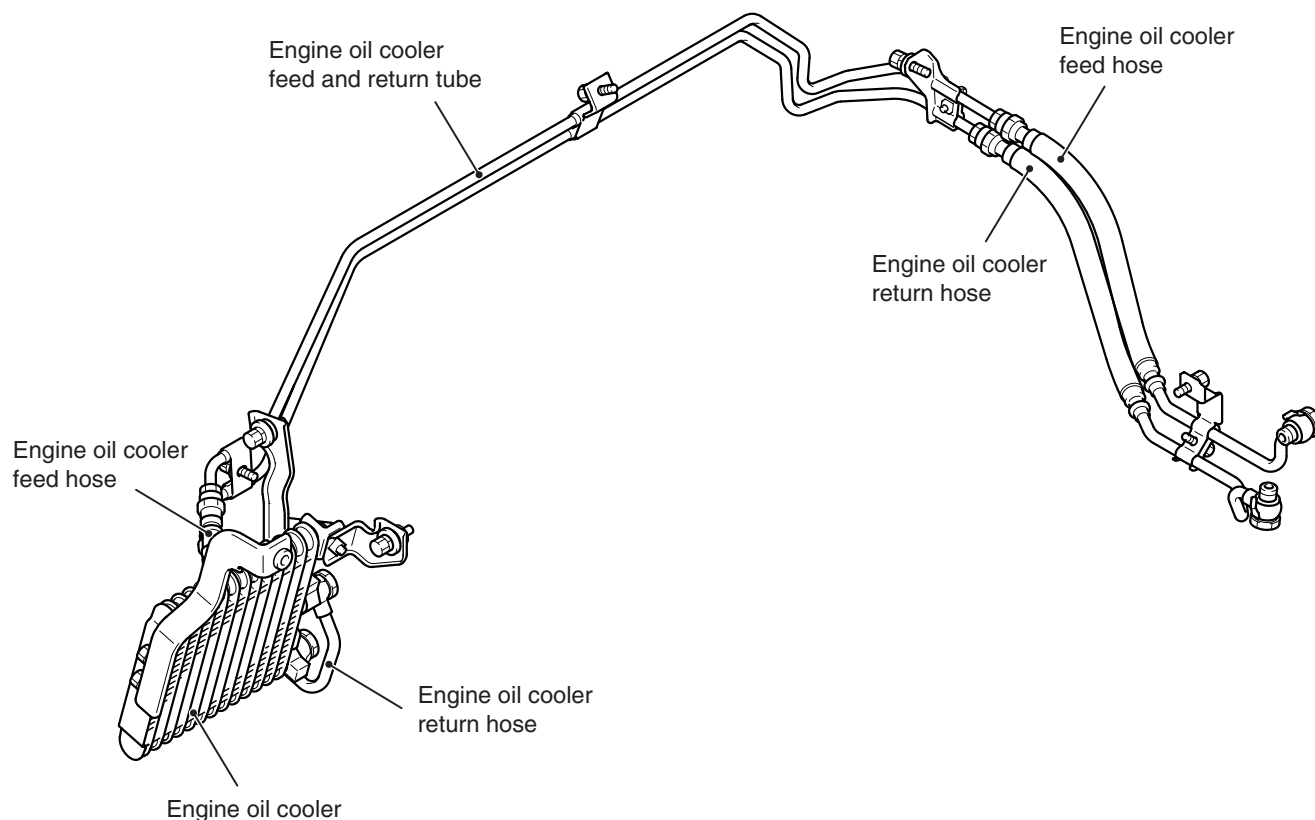

M2120001000137

The drawn cup air-cooled type engine oil cooler has been adopted to lower the engine oil temperature when driving at high speed. The engine oil cooler is installed below the left headlamp assembly and brings in the air through the oil cooler duct of the front bumper to cool the engine oil.

### SPECIFICATIONS

Item		Specification
Core type		Drawn cup
Core size mm	Width × Height × Thickness	190 × 150 × 32
Oil capacity L		0.21
Performance kJ/h		22,100
