

Fuel System Quick Connector

When removing the fuel tank or fuel pump on a Forester or 2000 model year Legacy, a part called a quick connector must be replaced.

The part number for the quick connector is not listed in the Subaru parts book. It is located in the Subaru parts price book, however. The part you will need to order is number 42128FC020. Scribble this number down and put it where you will be able to find it later. You will be looking for it in the future.
