The information in this manual is derived from the latest models available for our workshop research, and other available sources at the times of preparing the editions which first covered the models listed above. While every effort has been made in preparing later editions to ensure that subsequent modifications by the manufacturer have been included, vehicles and parts vary in manufacture, sometimes even from specifications published by the manufacturer. Accordingly, no guarantee or warranty is given that all such modifications are included in this manual.

While every precaution is taken to ensure the accuracy of the contents, no responsibility can be accepted for any misinterpretation or misapplication of the repair procedures described nor, apart from any warranties or conditions which might be implied by the Trade Practices Act and similar State and Territory Laws, can any liability be accepted for any errors or omissions in the text and/or illustrations.
