

3. Driver's Airbag Module S802307

A: CAUTION S802307A03

- The airbag module must not be disassembled. The airbag module cannot be used again once inflated.

- When removing and installing the airbag module, the operator should stand, as much as possible, on the side of the airbag module.

- After removal, the airbag module should be kept away from heat and light sources, and stored on a clean, flat surface to prevent from any damage to its lower structure.

- Do not check airbag module continuity with airbag removed from the vehicle body.

- Replace airbag module with a new one, should any of the following conditions develop:
 - Pad surface is scratched or cracked.
 - Connector harness is damaged.
 - Inflator side structure of module is cracked or deformed.
 - Module is excessively stained with water, oil, etc.
 - Module was accidentally dropped.

DRIVER'S AIRBAG MODULE

Airbag System

- When storing a removed airbag module, be sure to place it in parallel with floor with the pad facing up. Do not place it against a wall, or place anything on the pad; otherwise, a dangerous condition may be created if the module malfunctions.
