1. Front

A: GENERAL

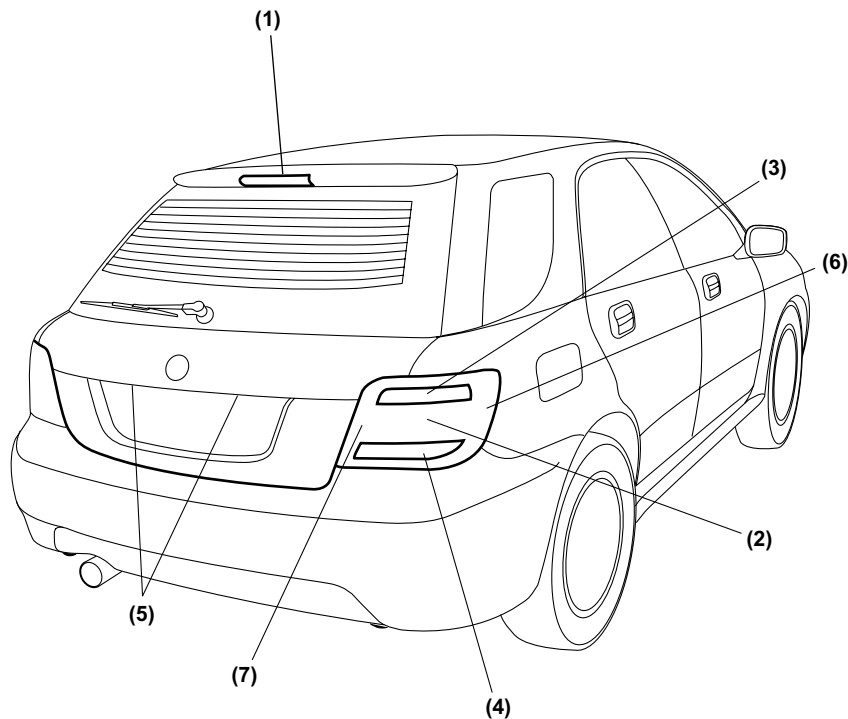

LI-00404

- | | |
|---|---------------------------------|
| (1) Headlight | (4) Front fog light |
| (2) Turn signal/hazard warning light | (5) Front side reflex reflector |
| (3) Clearance/parking/front side marker light | (6) Front side marker light |

- The headlight is a four-bulb type with either two HiD type low beam bulbs and two halogen high beam bulbs, or with four halogen bulbs; multiple aspect reflectors are used in both types. The reflector controls the beam distribution and no pattern is molded on the lens for all models. (HiD headlights are available for turbo and non-turbo models as an option.).
- The front turn signal/hazard warning light and clearance/parking/front side marker light are incorporated into the headlight.
- The fog light is of a multiple aspect reflector type.

2. Rear

A: GENERAL
