

7. Antenna

A: REMOVAL

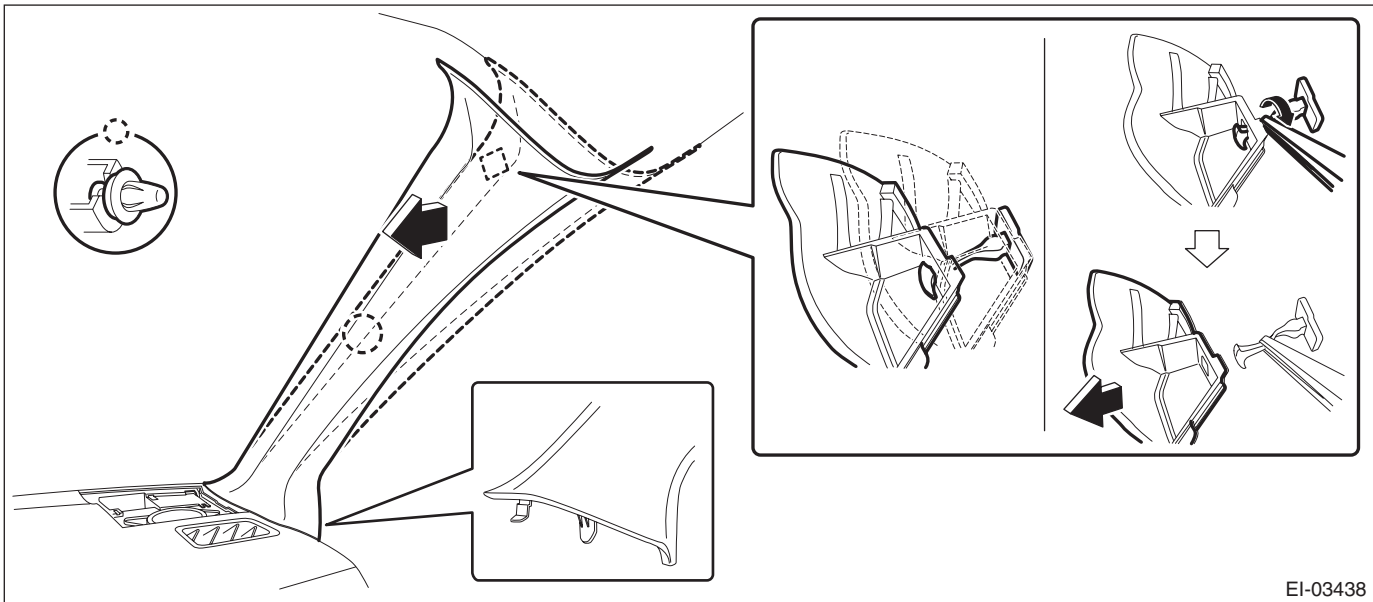

1. ANTENNA

- 1) Disconnect the ground cable from battery and wait for at least 60 seconds before starting work.
- 2) Remove the trim panel - front pillar UPR on the left and right sides.
 - (1) Pull the upper part of the trim panel - front pillar UPR towards the center of the vehicle.
 - (2) Insert long-nose pliers into the top part of the trim, grip the clip with the pliers and twist 90° in that position.

CAUTION:

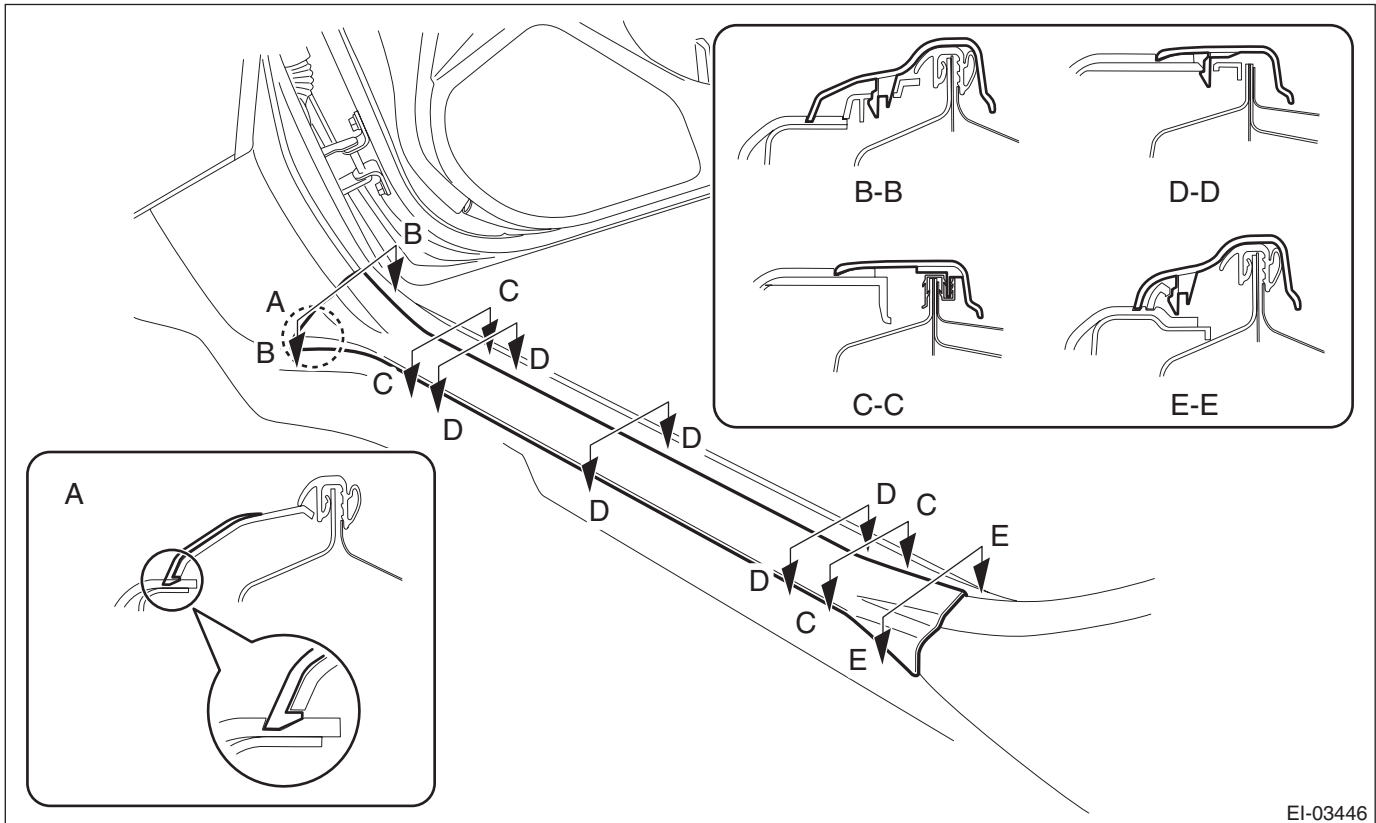

Be careful not to damage the pillar trim surface and curtain airbag module when inserting the pliers.

- (3) Holding the clip twisted as in the previous step, remove the trim panel - front pillar UPR from the clip.
- (4) Remove the clips, and remove the trim panel - front pillar UPR.

EI-03438

3) Release the claws, and then remove the cover side sill - front INN on LH and RH sides.

EI-03446

4) Remove the rear seat cushion assembly.

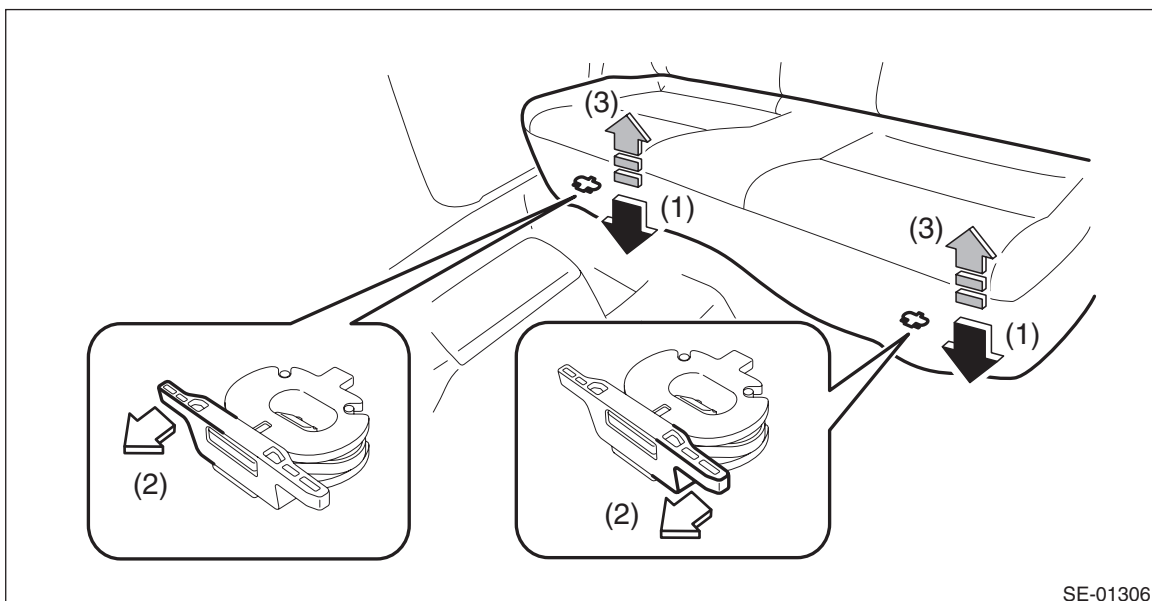

(1) Push the corners of the rear seat cushion from above.

(2) While pushing the corners of the rear seat cushion from above, pull the knob of the hook - seat cushion rear towards yourself.

(3) While pulling the knob towards yourself, disconnect the hooks by lifting up the rear seat cushion.

NOTE:

Pull the left side of the knob to disconnect the LH side hook, and pull the right side of the knob to disconnect the RH side hook.
