

Charge Warning Light

INSTRUMENTATION/DRIVER INFO (DIAGNOSTICS)

14.Charge Warning Light

A: INSPECTION

Illuminated when the ignition switch is turned ON, and goes off after the engine has been started.

NOTE:

For HEV model, when the charge warning light stays lit after the engine has been started, perform inspection for the charge warning light. <Ref. to SC(H4DO(HEV))-38, CHECK CHARGE WARNING LIGHT, INSPECTION, Integrated Starter Generator (ISG).>
