

### 5. Back-up Light System

#### A: WIRING DIAGRAM

##### 1. BACK-UP LIGHT

<Ref. to WI-90, WIRING DIAGRAM, Back-up Light System.>

#### B: INSPECTION

##### 1. BACK-UP LIGHT RELAY

Measure the resistance between headlight relay terminals when connecting terminal No. 4 to the battery positive terminal and terminal No. 3 to the battery ground terminal.

| Current | Terminal No. | Standard             |
|---------|--------------|----------------------|
| Yes     | 1 and 2      | Less than 1 $\Omega$ |
| No      |              | 1 M $\Omega$ or more |
