

Rear View

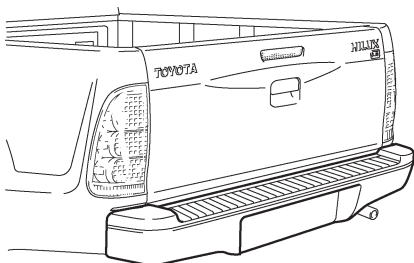

- Uniquely designed rear combination lights with a transparent look have been adopted to add to the presence and elegance of the vehicle.
- An LED type high-mount stoplight has been adopted on the tailgate of some models to ensure visibility when the vehicle is carrying cargo (refer to Equipment List on [page MO-30](#)).
- A flat type or a step type rear bumper is provided as standard or optional equipment in accordance with the grade and specification.
- The tailgate of some models is designed with the manufacturer's logo (refer to Equipment List on [page MO-30](#)).
